

REMARKS

Claims 41-64 are pending in the application and were provisionally rejected under the judicially-created Doctrine of Obviousness-type Double Patenting over claims 21-39 of U.S. Serial No. 11/282,505. When the only rejection remaining in a case is a provisional double patenting rejection the rejection should be withdrawn and the application allowed to issue. M.P.E.P. § 822.01. As the only rejection in this case is for Obviousness-type Double Patenting, the rejection should be withdrawn and the case allowed to issue.

Applicants note that claims 58 and 59, as filed on October 24, 2007, were inadvertently filed as duplicates. This has been corrected herein by amendment of claim 59. Support for the newly added compound (in amended claim 59) can be found, for example, in claim 18 of a parent application, U.S. Serial No. 09/334,488, and on page 43 of parent application U.S. Serial No. 60/089,682 (compound B1793).

Applicants note that the Form PTO 1449 that was submitted with an Information Disclosure Statement filed on October 16, 2003 has not been initialed and returned, and hereby request that it be initialed and returned with the next Office Action. A copy of the October 16, 2003 Form PTO 1449 is enclosed herewith, for the Examiner's convenience.

Applicants submit that the claims are in condition for allowance, and such action is respectfully requested. If there are any charges or any credits, please apply them to Deposit Account No. 03-2095.

Respectfully submitted,

Date: April 9, 2008
